CO2-40

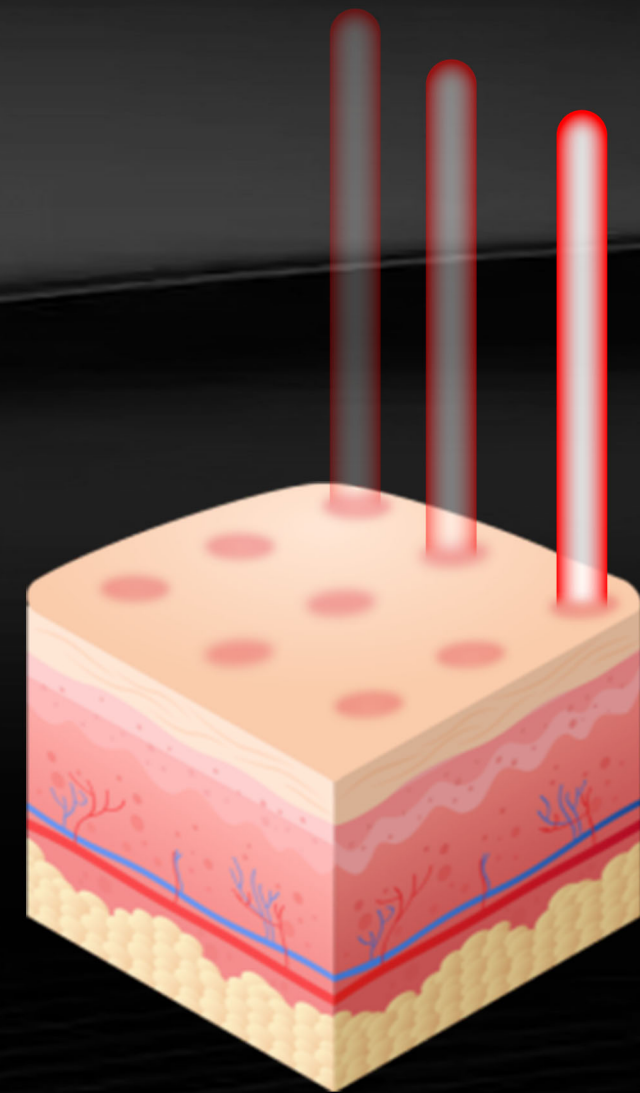

CO2-70 & CO2-100

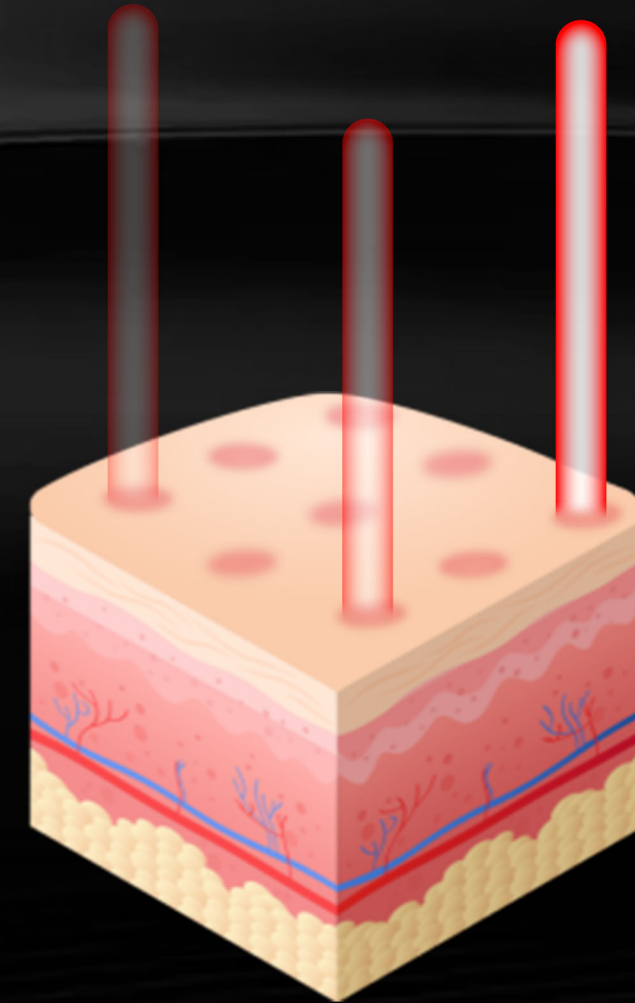

Co2 Family

Fractional Laser CO2 comes in different power settings depending on the user's needs. You can choose out of three different options including: CO2-40, CO2-70, and unique CO2-100, are RF metal CO2 Laser system (USA Coherent laser source) CO2-100 able to deliver an output power of 100W, CO2-40, CO2-70, and CO2-100 are with a power to tissue of respectively 40W, 60W, and 100W.

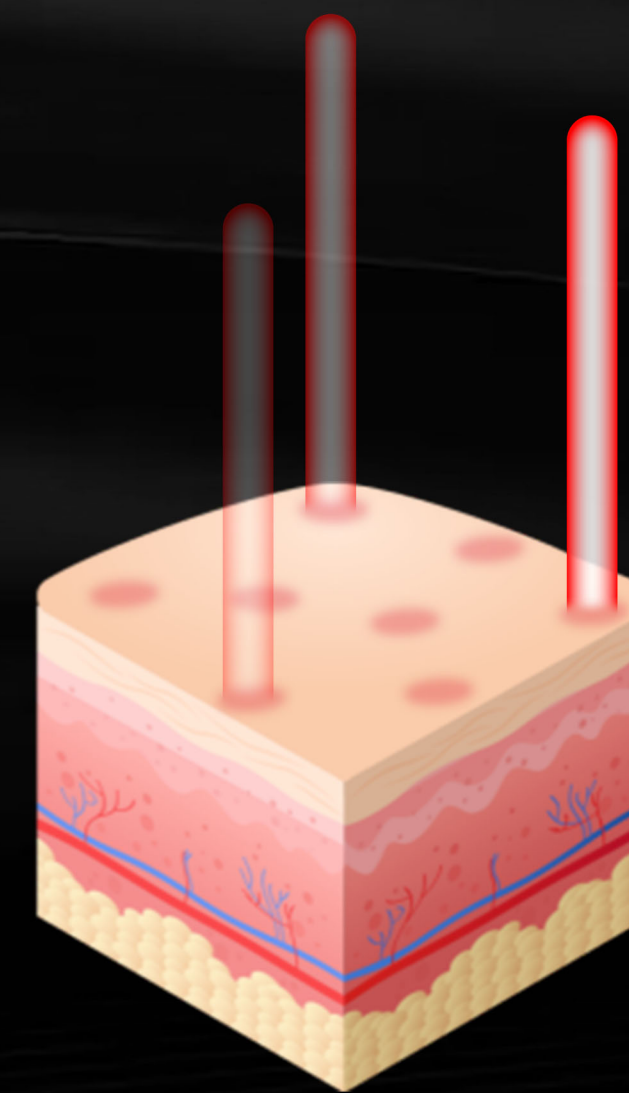

Random Scanning Technology & Scrambled scanning technology

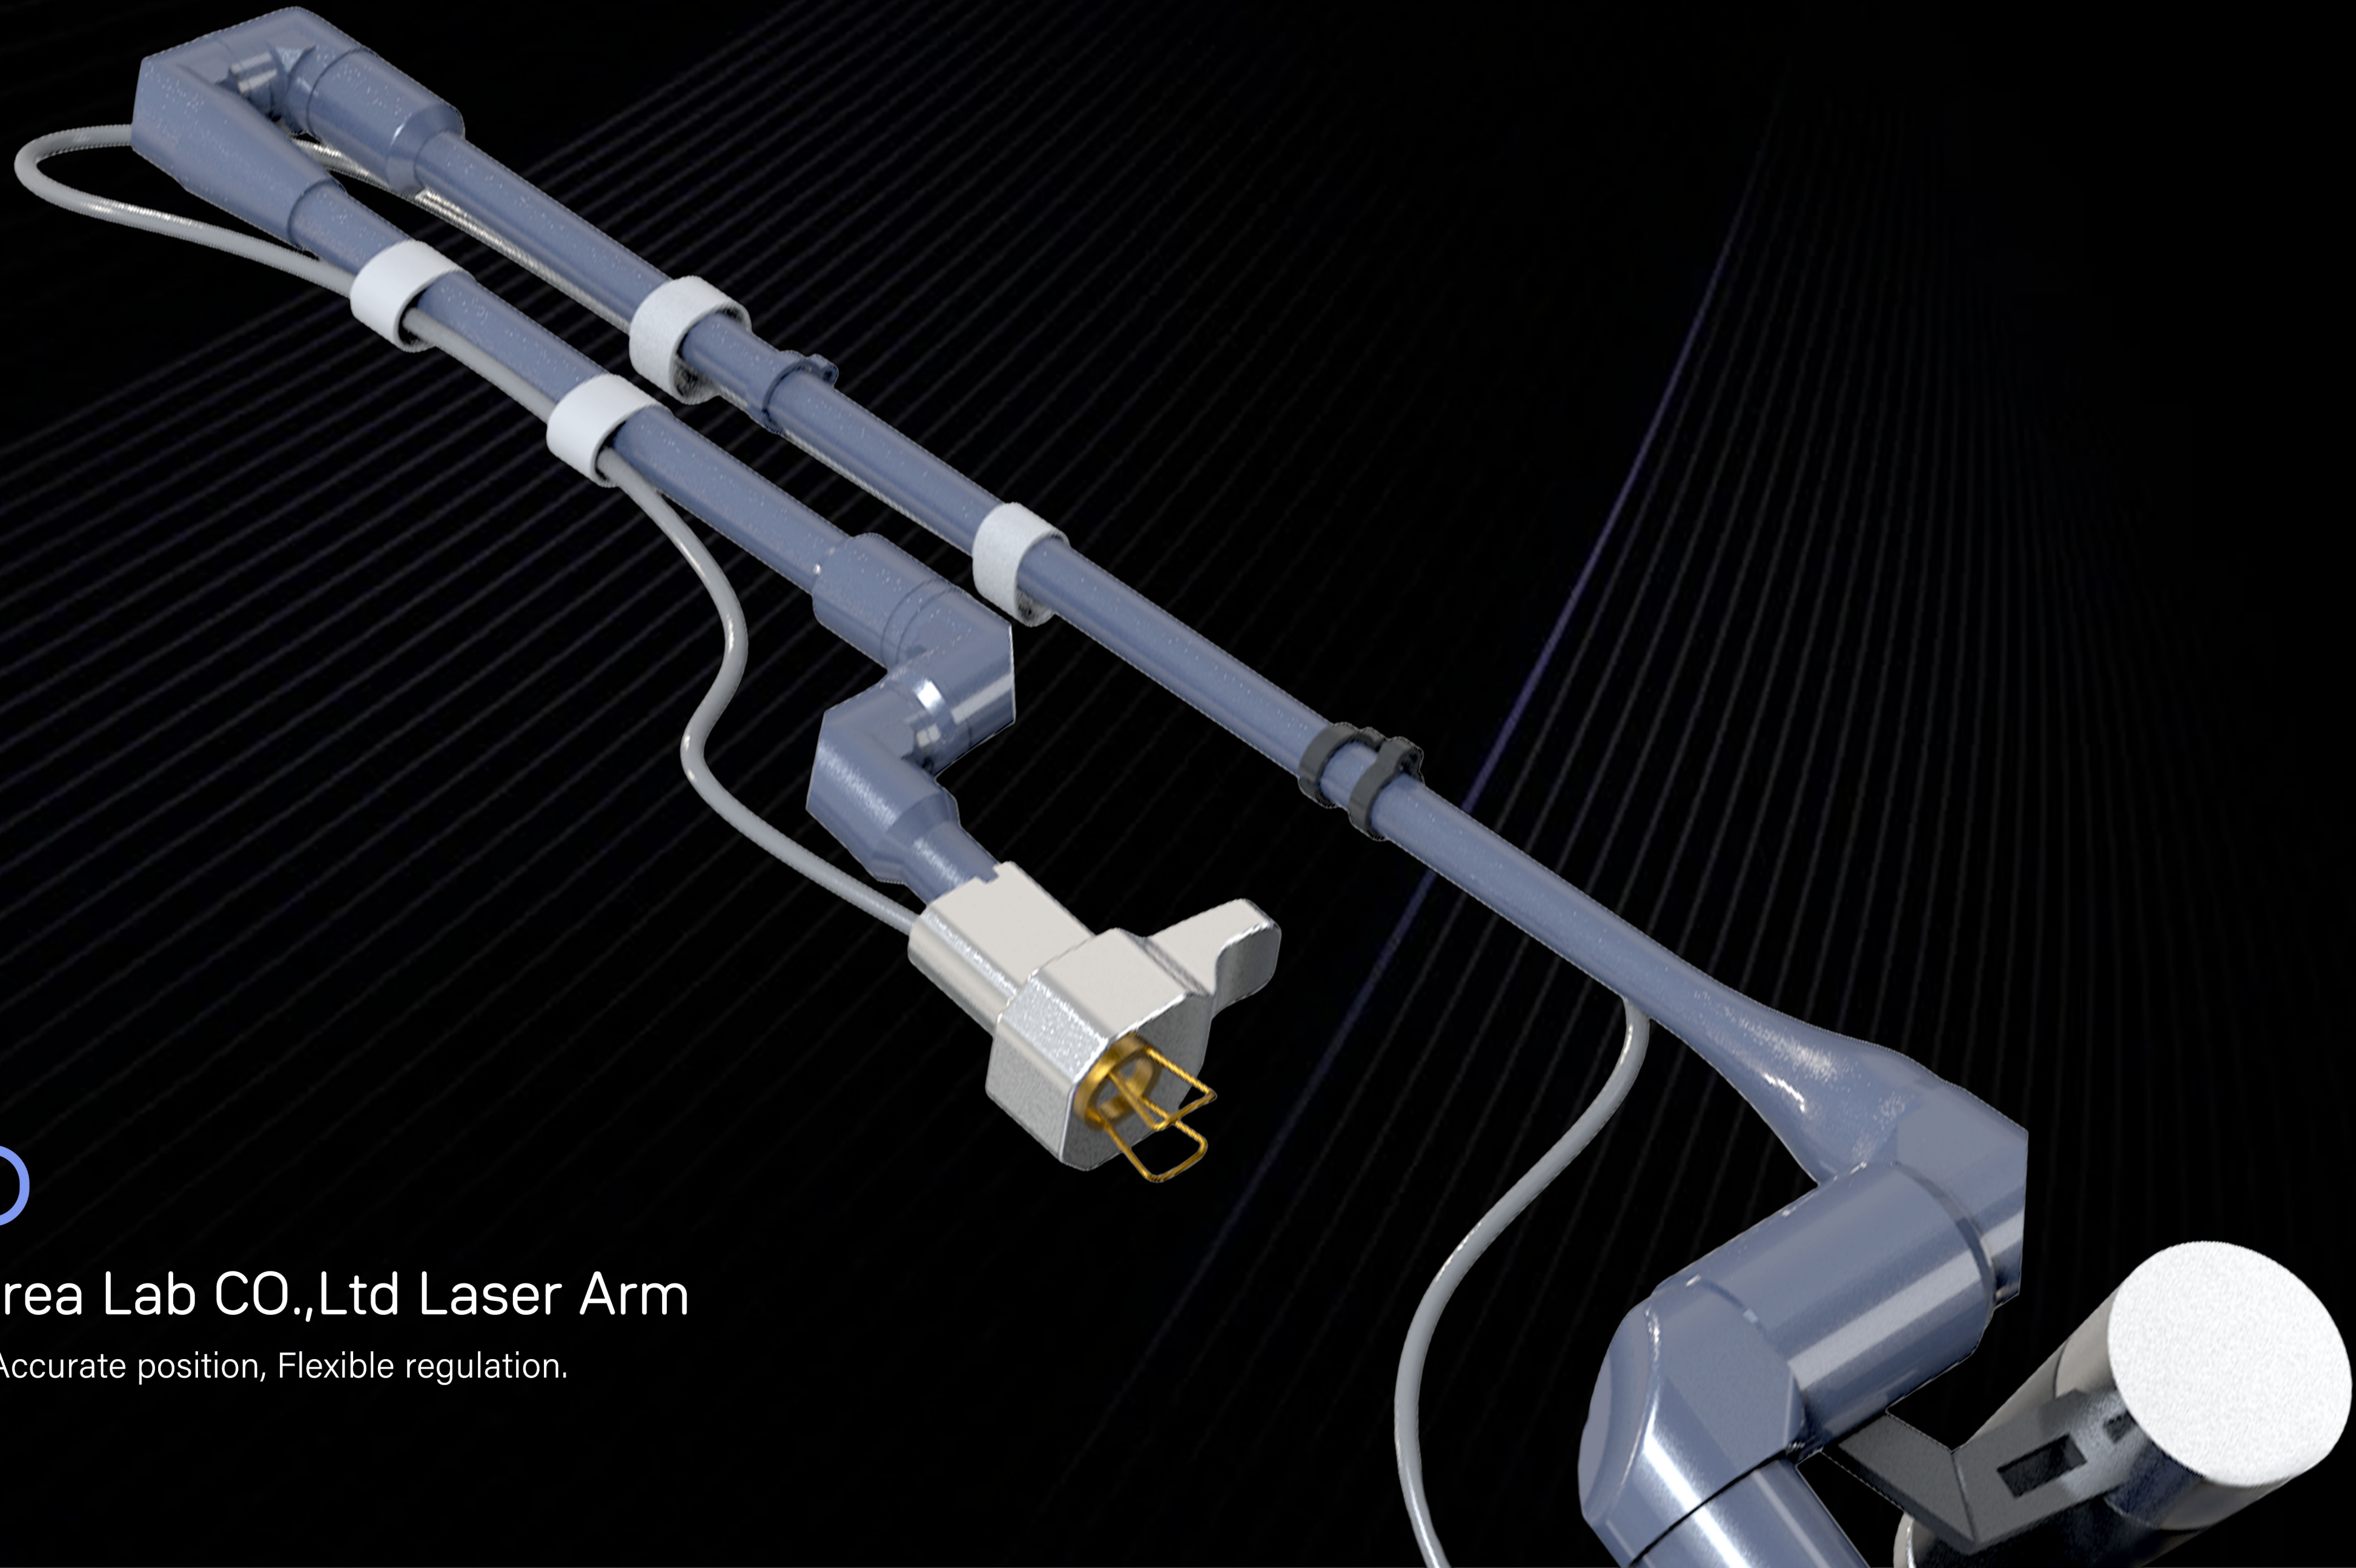

Sequential scanning

Random scanning

Scrambled scanning

Import Korea Lab CO.,Ltd Laser Arm

Release hands, Accurate position, Flexible regulation.

Customized Treatment

Various and optional treatment heads for convenient usage

Fractional co2
laser probe

CO2 Laser Probe
f:100mm

CO2 Laser Probe
f:50mm

Vulva Rejuvenation Probe

Treatment of
Cervical Erosion Probe

Inner Vagina
Rejuvenation Probe

Customized Treatment

Various and optional treatment heads for convenient usage

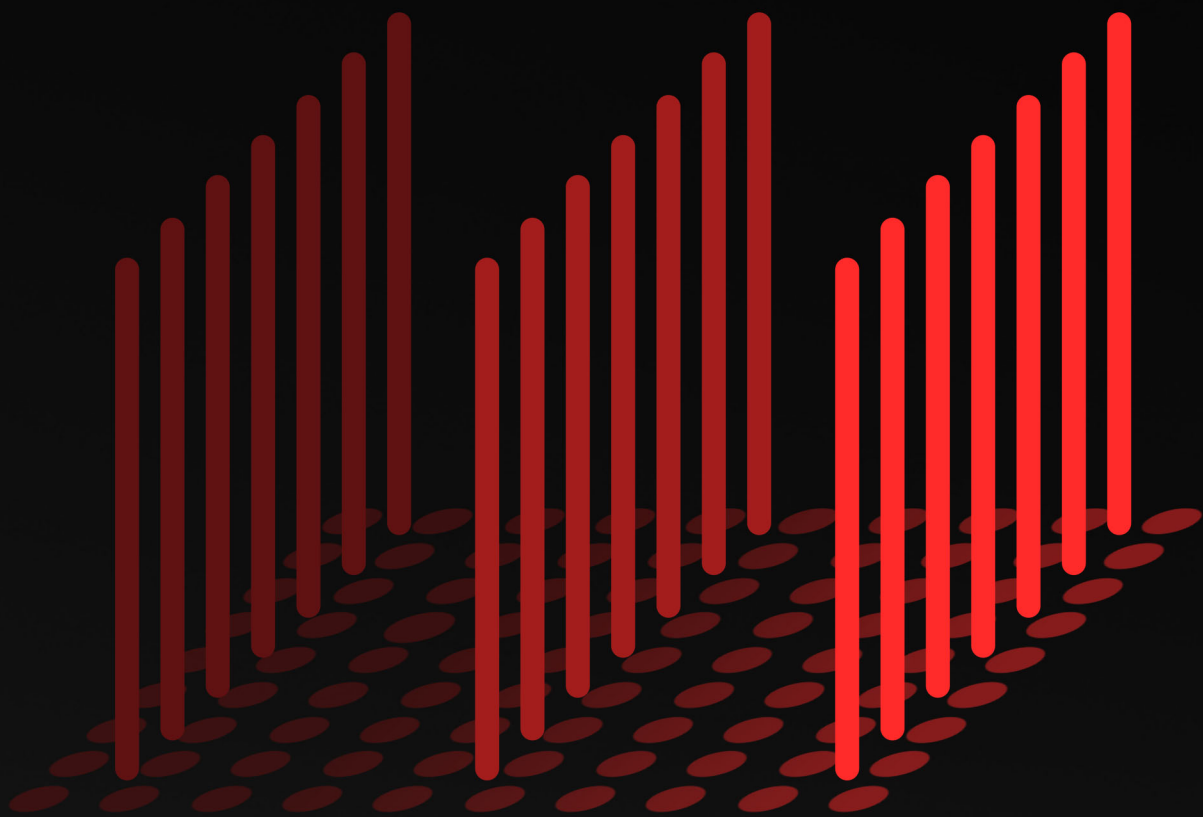

Gynecology Handpieces

Precision workmanship with lubricated edges

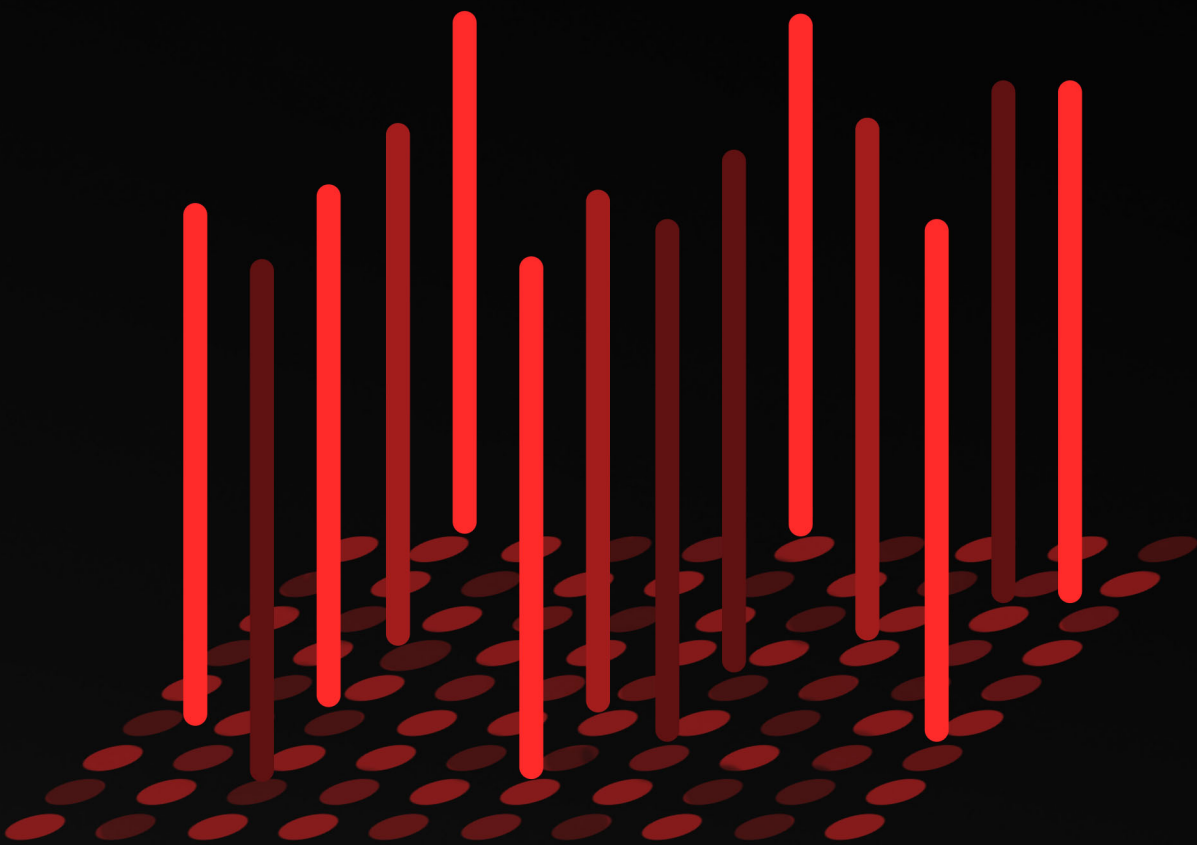

Multi-Mode Scanning

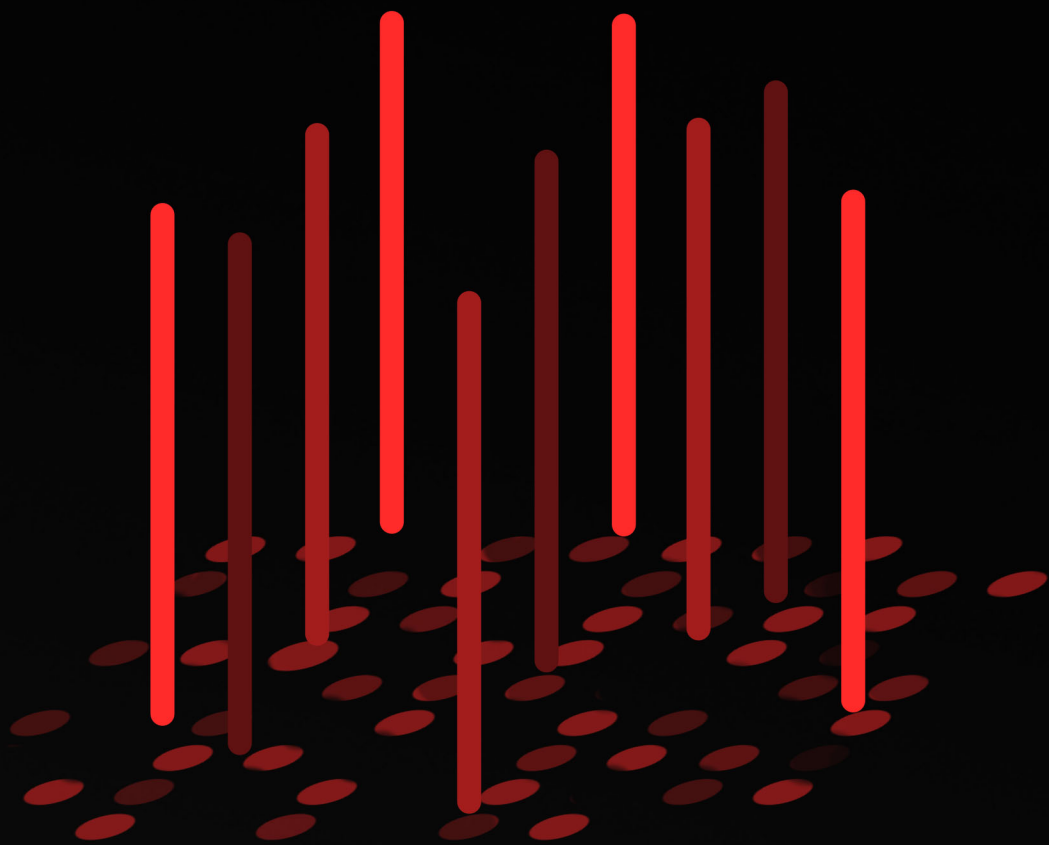

Sequential scanning and random scanning combined, multiple adjustable scan patterns, improved the treatment effect and comfort.

High-Speed Graphics Generator

It has an ultra small size, high speed and high precision vibroscope. The scanning speed of vibroscope can be up to 100 mm/s. The vibroscope's accuracy is up to $\pm 0.1\text{mm}$. A variety graphic lattice scanning can be done more quickly and accurately; in particular, the function of random scanning is provided to reduce pain and recover faster;

Ergonomic Design

Button Design

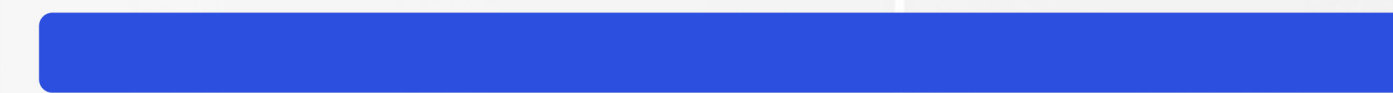

Adjustable Spot

U.S. Coherent Lasers

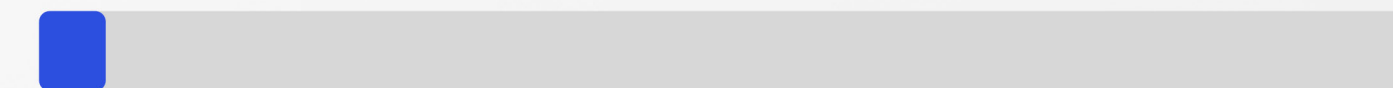

Long-life coherent lasers with industrial properties. Its maximum power up to 100W and the power stabilization $\leq \pm 1\%$. These designs make sure every pulse energy is accurate; The perfect distribution, beam quality $M2=1.1$ ensures the depth of laser energy into the subcutaneous; Air cooling design is stable and reliable, no maintenance.

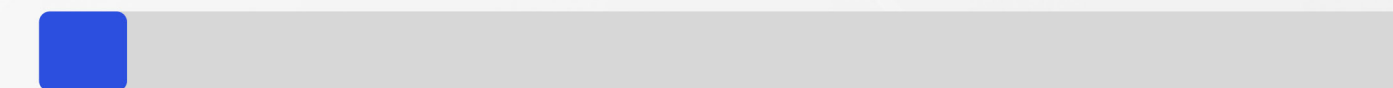

Maximum Power 100W

Power Stability $\leq \pm 1\%$ 1%

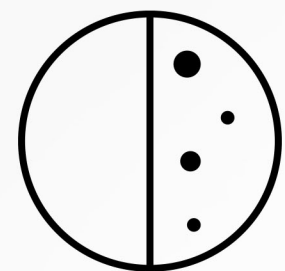

Beam quality $M2 \leq 1.1$ 1.1%

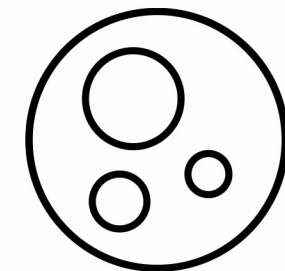

HIGH POWER:
100W

Functionality

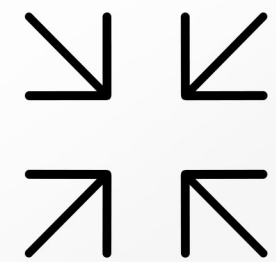

Innova Tiontechnical Fast Treatment,Deeper Penetration With Lesspain

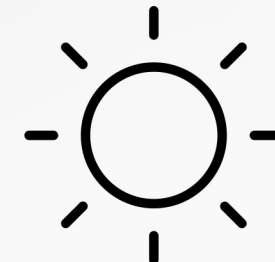

Acne removal

Remove the pigment

Pore minimization

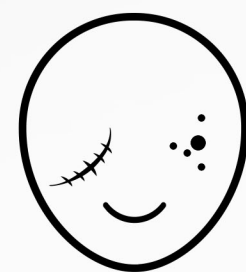

Sun damage recovery

Skin renewing
and resurfacing

Skin tightening
wrinkle removal

Smooth scars
and dermabrasion

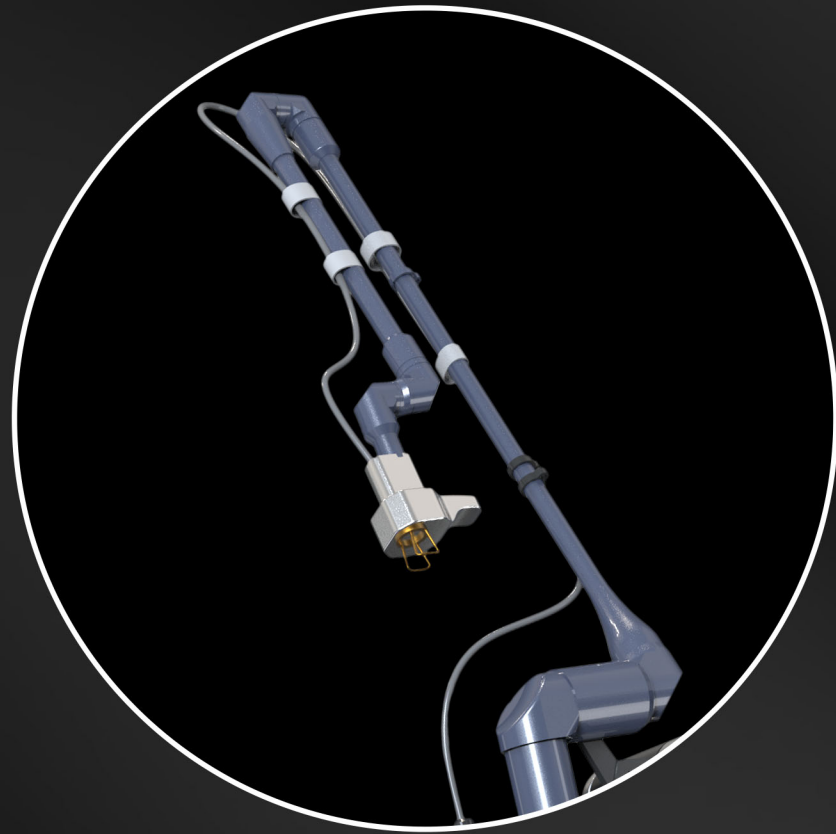

Vaginal tightening,
Vulve Rejuvenation.

Accessory Advantage

Korea brand 7 joint laser arm,100w high power,USA RF tube laser driver,USA imported nano sensor motor,Fully intelligent operating system,Unique sliding scan treatment mode.

Korea Brand 7 Joint Laser Arm

American Coherent Lasers

Unique Scanning Applicator

Surgery Cutting Probes

Gynecology Handpieces

11.6-inch 4K smart large screen

4 Reasons To Choose us

30%~40%
Reduced treatment time

100W High Power
Small skin lesions, low risk,
short recovery period

Solving
All skin problems

Expert
Recommendations

Clinical Test Result

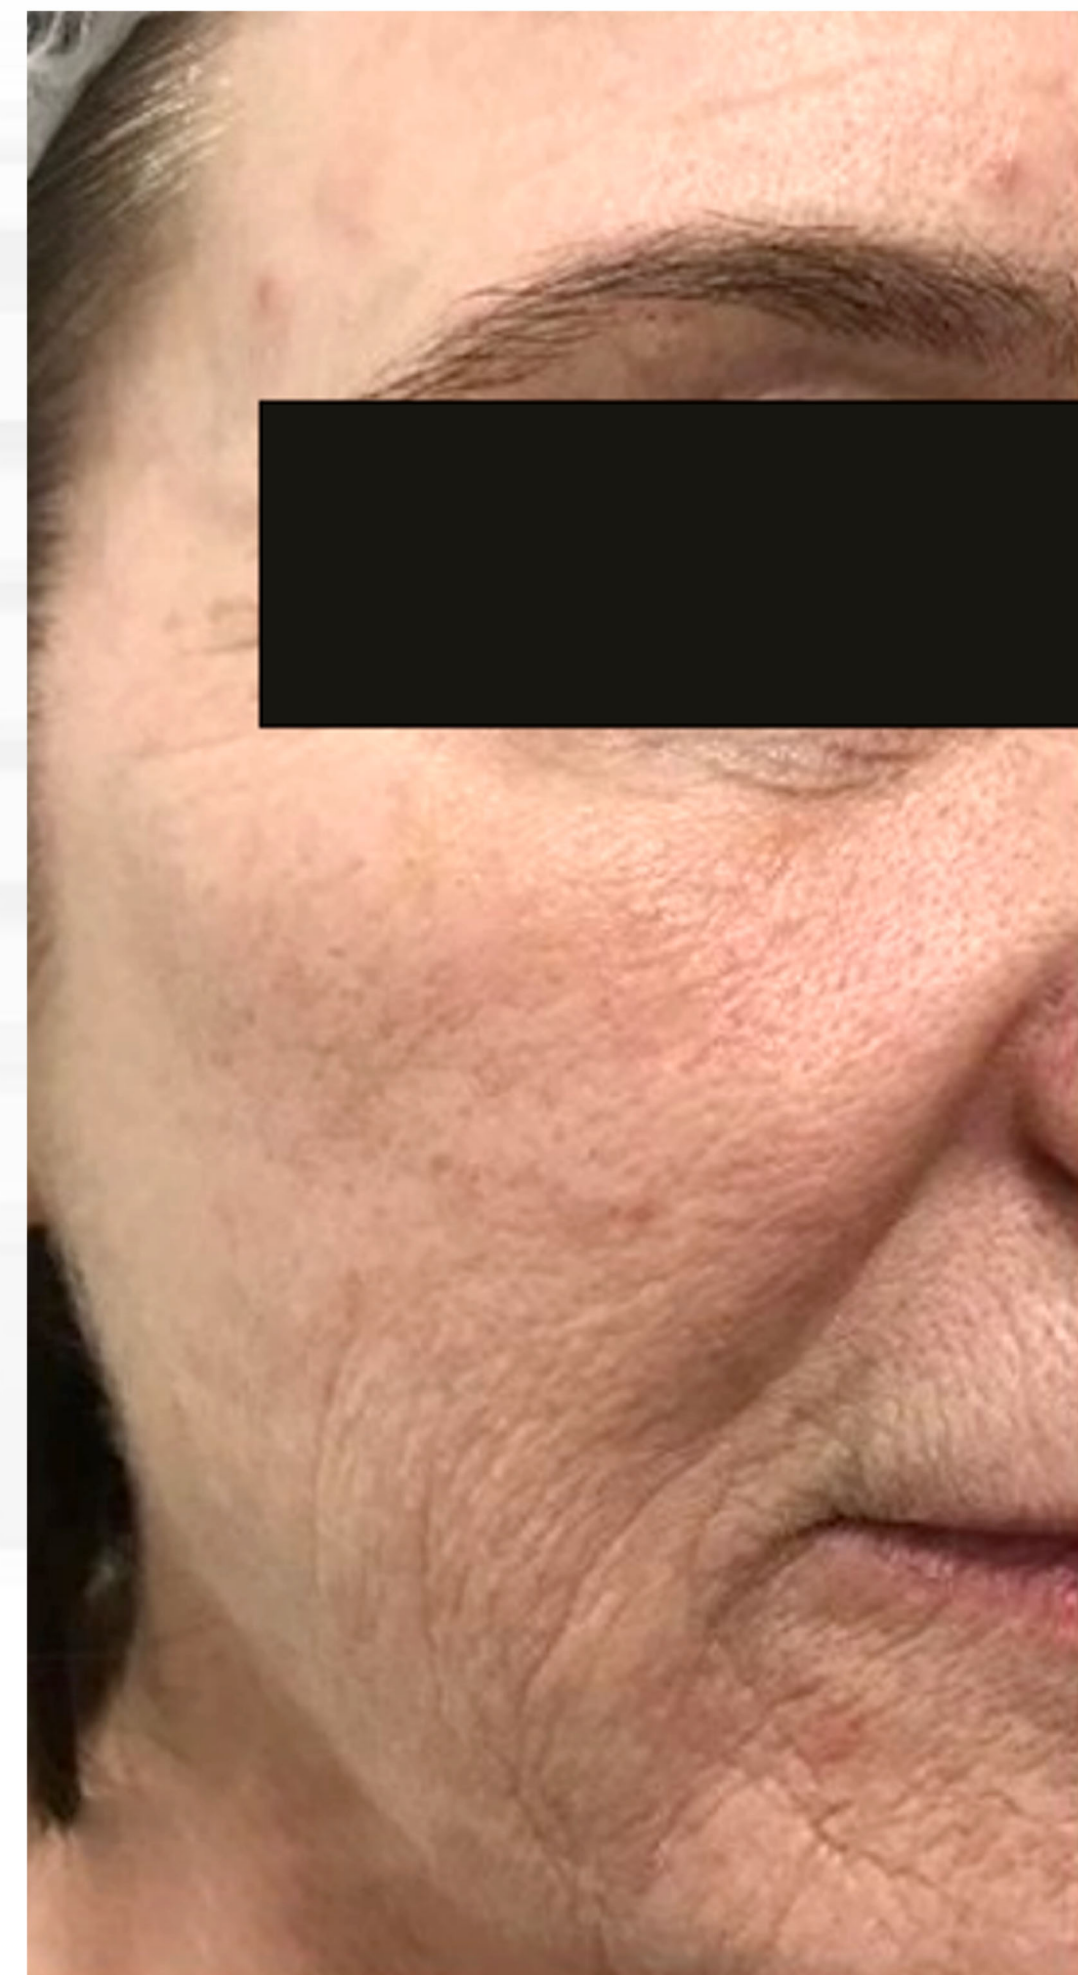

Effective and wide range of treatments
